## Funding Freedom

On the heels of our 2018 Thanksgiving campaign to feed the homeless in Denver, we have now set our sights on fighting to end global slavery. We partnered with the International Justice Mission (IJM) for all of 2019 in order to #FundFreedom.

Many people do not realize slavery is still a major issue. Here's the truth: There are more people living in slavery today than at any other point in human history. Nearly 40 million.

IJM does the dirty work. They locate slaves, work with local authorities, rescue victims, and arrest owners.

We can provide the funding. In 2019, we have set a goal as a CFG Family to raise \$10,000 for IJM.

If you are interested, details and a link to give can be found at [CFGfinancialplanning.com/giving](http://CFGfinancialplanning.com/giving)

Raymond James is not associated with IJM.

## Spring Storms

Springtime in Colorado always brings one last inevitable April snow, the return of the golf ball sized hail, and the occasional tornado siren on the eastern plains.

When you are stuck in a severe Colorado storm, like the "bomb cyclone" blizzard from last month, it can be easy to forget that Denver is touted as one of the sunniest cities in America, averaging 300 days of sunshine per year. Truth is, it is easy to lose faith and perspective in the middle of any storm. We see this with the stock market, the economy, our businesses, our health, and our families.

Storms can take many forms, develop in various ways, and come and go on their own schedule. There is no way to control a storm, you can only manage how you prepare and react.

Want to prolong your storm? Run from it. No one outruns a storm. The quickest way through a storm is the path of MOST resistance, taking it head on. Prepare for your storm, run straight for it, and fight to get to the sunshine on the other side.

We know that life can sometimes feel like a nonstop series of storms.

Decisions, disappointments, diagnoses, deaths - there's always something. We want to support and encourage you with this: Every storm is temporary. You can, and will, make it through whatever storm you're in right now.

We are here to support you. Please make sure you reach out whenever a storm is on the horizon.

# Around The Office

We are constantly working to find new ways to serve our clients better. New technology, new strategy, new designations. Here's what's new!

LEAH EARNED HER SERIES 7!!! - One of the most challenging licenses to earn, Leah can now process trades when clients need them. We are so proud of her hard work and accomplishment. Next time you call the office, give her some love!

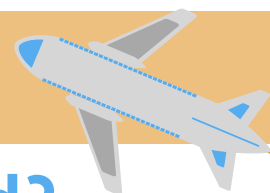

CFG YouTube Channel - We recently joined a select group of advisory teams that is actively creating financial video content for clients. Be sure to visit 'CFG Financial Planning' on YouTube and subscribe!

Monday Morning Minute - Each Monday on our YouTube channel, Alex is posting a 60 second market recap and outlook to help clients stay up to speed on the economic environment.

Investment Series - Be on the lookout for a new video series on basic investment principals. Please like the videos if you are enjoying them. If you have ideas on how we can improve them or new series topics we can cover, please let us know!

We love what we do and work A LOT, but did you know that our team loves to travel too? Check out where we've been!
